

TRACKINGPOINT.

Once we rid ourselves of
traditional thinking we can get
on with creating **the future**

33 TrackingPoint

A soldier in camouflage gear and a tan cap is aiming a precision-guided firearm. The weapon features a dual-launcher system on top, a scope, and a rail system. The soldier is wearing a black glove with "Mechanix" written on it. The background is a blurred, warm-toned landscape.

Introducing the Precision Guided Firearm

Jet Fighter lock-and-launch technology

The most accurate long-range shooting system in the world

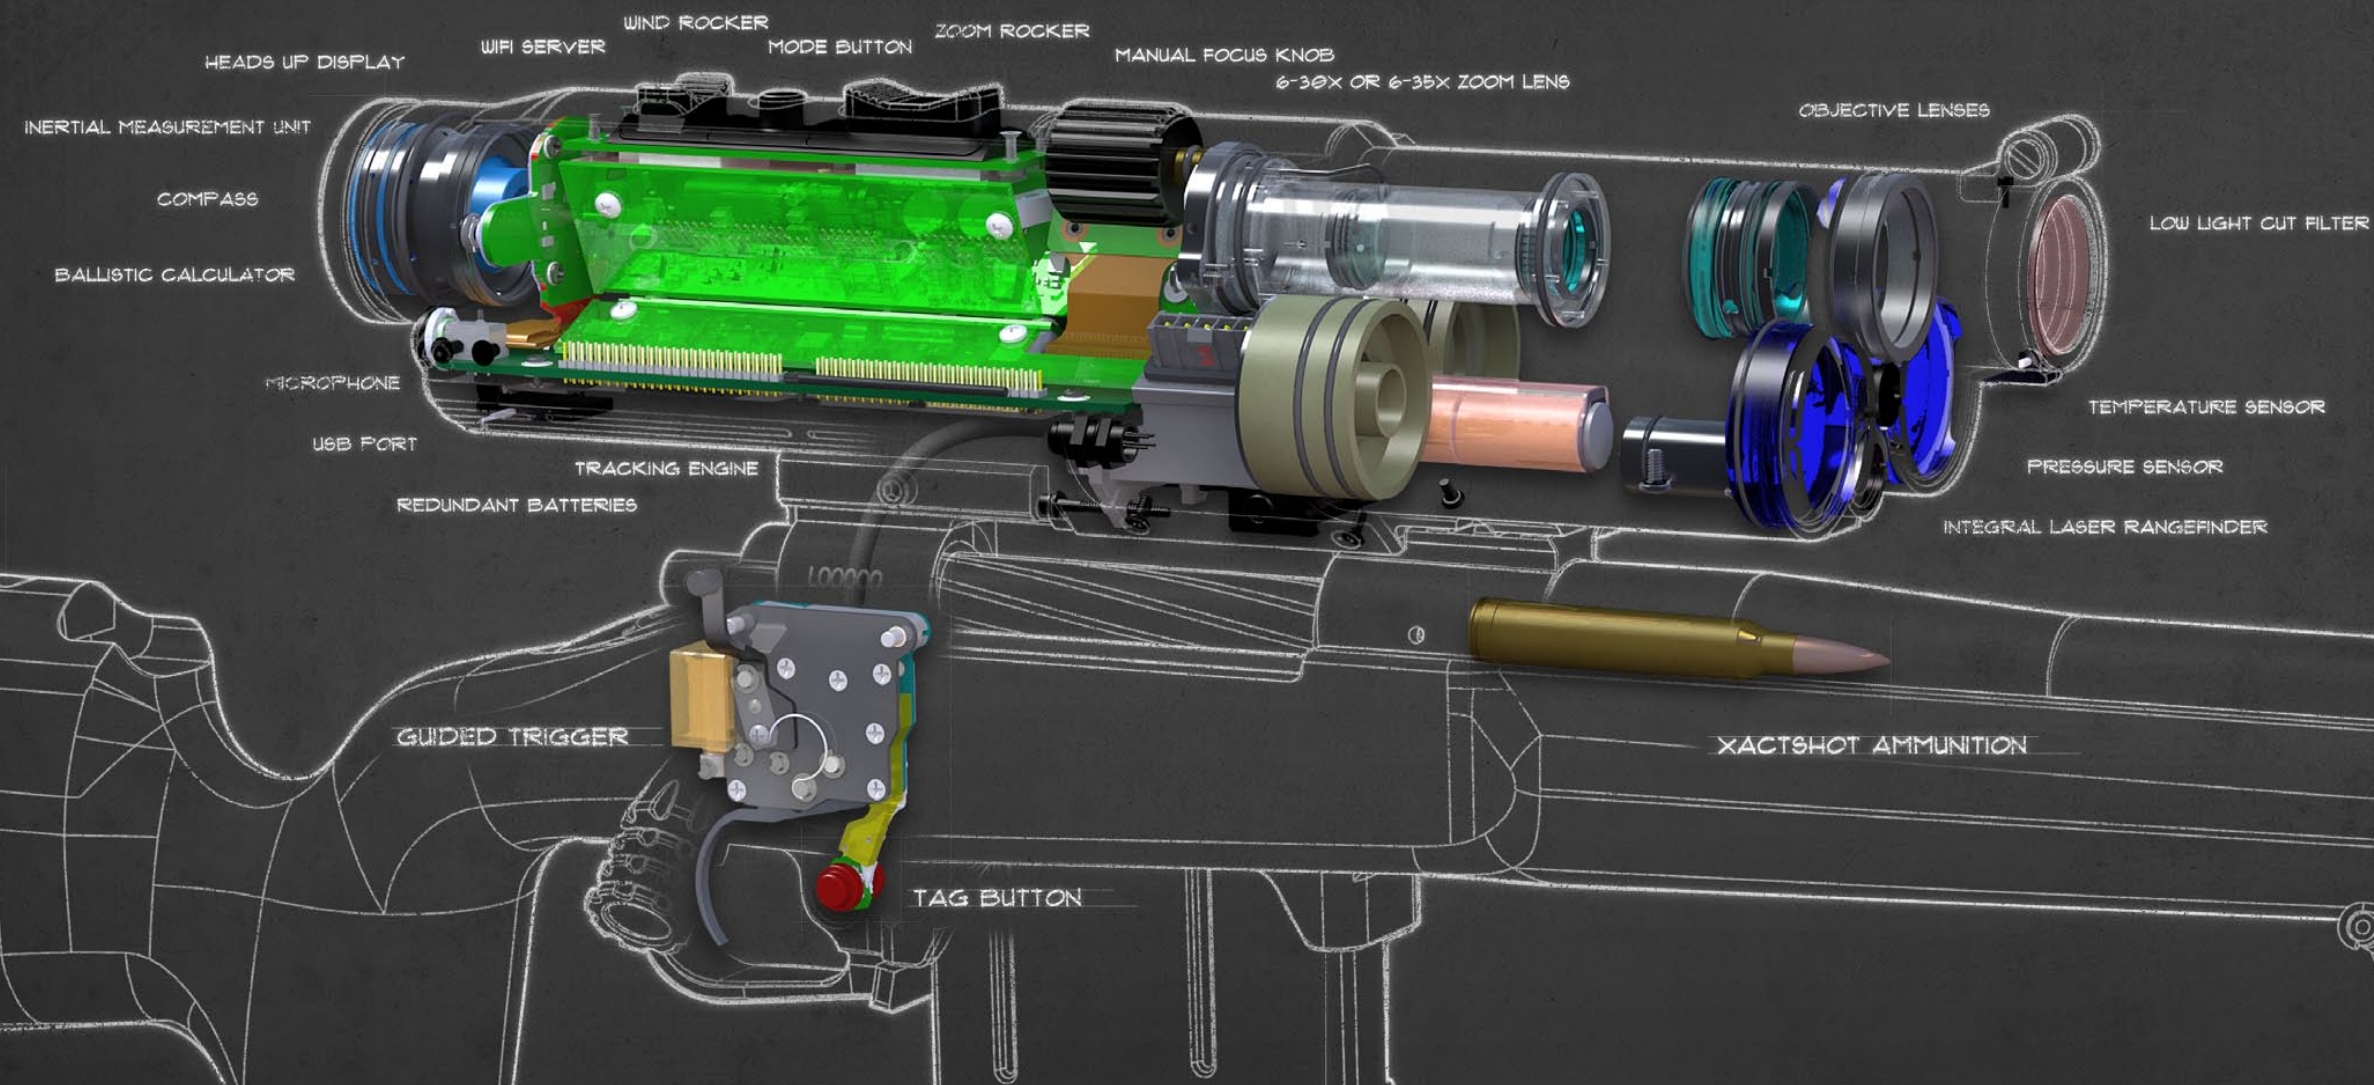

Minutes to mastery

Enables anyone to track and hit moving targets at extreme ranges

Collaborate via streaming video

Prove your shot with recorded video and photos

NETWORKED TRACKING SCOPE

A close-up, side-profile shot of a man wearing a black helmet and goggles, aiming a precision rifle. The rifle is mounted on a tripod and has a large thermal scope attached. The background is a bright, clear sky and a grassy field. The overall tone is professional and focused.

Simplicity is the
ultimate sophistication.

XACTSYSTEM™

Just Add Targets

TrackingPoint's Precision Guided Firearm is called the XactSystem and comes as a complete firing system in a custom hard case with 200 rounds of XactShot™ ammunition and all of the batteries, chargers, magazines, cleaning supplies, and instructions you need, including an iPad® pre-loaded with TrackingPoint apps.

The Networked Tracking Scope, Guided Trigger, and Tag Button are integrated with each firearm and ammunition combination, tested and zeroed prior to shipping.
